

Citizens Reutilizing Assistive Technology Equipment (CReATE)

Pediatric Device Inventory

PLEASE NOTE: If you are a practitioner qualified to evaluate the mobility needs of a pediatric client, you are welcome to have any of the devices listed at no cost. The devices listed in the pediatric inventory are not refurbished or sanitized and therefore do not have a service fee attached to them. Power pediatric devices will not have a battery included either. The CReATE program is simply collecting these devices and passing them on to you.
